SUBPOENA GORDON TO APPEAR MONDAY

PROBE COMMITTEE TO FIND
OUT ABOUT THIS COUNTY

ELECTION IS TO BE PROBED

FRAUD CHARGES MARCH 4TH TO
BE SEARCHED

SENATORS WIN THE CONTROL

Assemblymen Who Voted to Acquit
While Trial Was Pending Give
Up in Hot Fight

MADISON, Wis., March 6.—(Special.) A subpoena has been issued, citing George H. Gordon of La Crosse, to appear before the senatorial investigating committee Tuesday and give evidence relative to the disbursement of \$1,800 which Secretary Sackett's account of Mr. Stephenson's campaign expenses shows he received.

Subpoenas were also issued for State Game Warden Stone, M. C. Ring, Northwestern lobbyist, and Mr. Dresser, member of the state board of control.

TO PUSH PROBE
From this on the investigation is expected to proceed with greater celerity. There are two reasons for this, one being that the object of the assembly members in delaying it ended when Stephenson was elected.

INTEREST FELT HERE.
The announcement that Mr. Gordon will be called upon to testify as to what he did with the \$1,800 of Stephenson money adds interest to the probe here as it is expected that many others of La Crosse people will be drawn into the affair. There have been frequent and lengthy conferences between Mr. Gordon and R. B. Gelatt, publisher of the Chronicle and Leader.

Press in Mr. Gordon's office, doubtless relative to the money Mr. Gelatt got for the support of his papers.

The other is that, after the bitter fight in the committee that followed Stephenson's election, the assembly members retreated before the threats of Morris and Marsh to hold a separate senate probe and yielded to the three senators the privilege of directing the course of the inquiry in the future. The assemblymen made a stubborn fight, but they were "wise" to the record that could be made against them by a separate committee, and they surrendered to the inevitable.

Voted to Acquit
These five assembly members of the probe committee voted to seat Stephenson while the probe was in progress. An adverse vote by any one of them would have held up the election until the investigation was completed. IN OTHER WORDS, SITTING AS JUDGES, THEY VOTED TO ACQUIT BEFORE THE EVIDENCE WAS HEARD.

This was put up to them in unvarnished English by Morris and his associates, and there was no answer.

Another Scandal Now
The probe will not only continue, but will be extended up to March 4, to take in the manner of Stephenson's election by the legislature, regarding which there are ugly stories afoot.

A certain assemblyman is quoted by at least seven reputable members as saying he was offered \$1,500 by somebody to leave the senate on the day of the election. The statement is not specific as to further details, and the departure of the assemblyman for his home prevented corroboration. A subpoena has been issued, and the facts are expected to be brought out early in the week.

Meantime the senate has voted to extend the time of the probe to May 1, and to appropriate money to defray the expenses thus incurred. It comes up for concurrence in the assembly Wednesday.

To Punish Colleagues
In addition to the drastic resolutions repudiating the conduct of their associates, Farrell, Ramsey and Towne, the democratic absentees who made the election possible, the democrats are said to be planning a hazing experience that will be severe punishment. They propose, it is openly said, not to speak to their erring colleagues during the remainder of the session.

They "Dumped" Cook
The evidence regarding the East-vere punishment. They propose, it is of material interest. Briefly, A. O. Eastman was a Cook worker at Platteville. On the stand he swore that he changed from Cook to Stephenson about two weeks before the primary. On cross examination he admitted that three days before the primary he attended a meeting at which one Orput, who had dispensed \$1,675

FRANCE'S AERIAL FLEET MIGHTIEST

GERMANY STRONGEST IN GOV-
ERNMENT OWNED SHIPS

UNITED STATES WELL UP

Fighters of the Air Are Now Being
Considered in Statistics Prepared
by British War Office

LONDON, March 6.—France leads the world in the number and effectiveness of aerial fleets, according to figures published by the British war office today. Many of France's "fliers," however, are owned by individuals. In the number of government-owned vessels, Germany leads. The war office's showing is as follows:

France—Airships — Republique (government), Lebaudy (government school ship), Bayard Clement de la Vaux.

Airships under construction—Ville de Bordeaux, Colonel Renard (government), Liberte, Democratique.

Aeroplanes—Wright Brothers, Zens, Farman, Chedville, de la Grange, Ferber, Antoinette III.

Monoplanes—Bleriot IX, Bleriot VII, Colonel Renard (government), Germany—Airships — Parsyval I, Parseval II, Zeppelin III, Zeppelin V, Gross II (all government), Goos (government school ship).

United States—Airships — Baldwin (government).

Aeroplanes—Wright Brothers (inventors allowed until June to prove machine's practicability, when purchase of American rights by government is probable), June Bug, England—Airships — Secundus II (government).

Aeroplanes—Cody (government). Other countries at work are summarized as follows:

Italy—Two airships.
Russia—One.

Austria—One under construction.
Spain—One.

Belgium—Two, one of which is under construction.

Holland—One under construction.

The French records include the trip of the Ville de Paris, now destroyed, from Paris to Verdun, 146 miles, in 25 miles an hour; the Lebaudy's twelve hour stay in the air, covering 280 miles; Farman's aeroplane flight of seventeen miles, and Wilbur Wright's flight of 56 miles in 91 minutes.

BLUE NOSED NEW YORKERS BLOW IN

NEW YORK, March 6.—With colds in the heads and all the creases out of their own individual uniforms, New York's "millionaires" regiment, the Seventh, today disembarked from a deep sea-going Pennsylvania special from Washington and flaunted the standard of the "never again" army.

It was the saddest array of citizen soldiery that ever left its native city under waving flags and behind booming bands, to return bedraggled, footsore, hungry and disgusted with weather prophets, inaugurations, and life in general. The Seventh was only a part of the army of sick, blue-nosed patriots who got back to "dear old New York" today.

Their experiences include such minor details as getting out and shoveling off the track, repairing telegraph wires, removing telegraph poles from car windows and starving to the point of ferocity.

The regiment missed the inauguration, had a special parade the next day and started back to New York yesterday afternoon. The trip took 14 hours.

T. O'CONNOR, HERE'S \$20,000 FOR YOU!

BAY CITY, Mich., March 6.—If the right Thos. O'Connor will make himself known to E. W. Porter here, he can have his \$20,000. The right one is supposed to be somewhere among the many Thomas O'Connors on the Pacific coast. The will of Timothy O'Connor, who died recently, left the \$20,000 estate to his son, Thomas, who went west several years ago. Porter is executor of the estate.

BAXTER IS FREED
MINNEAPOLIS, Minn., March 6.—Wm. Baxter, the Minneapolis private detective who has just been through a sensational trial on charges of extorting money from several Minneapolis saloonkeepers, was pronounced not guilty by a Hennepin county jury last night.

GUILD ATTACKS CANNON.
BOSTON, Mass., March 6.—Former Governor Curtis Guild's paper, the Commercial Bulletin, today publishes an attack on Speaker Cannon, of the house of representatives, for the failure of the house to adopt the senate forestry reserve bill, of which Guild was an ardent advocate.

THE IRISH GIRL OF MYSTERY

Pretty Ella Gingles and the Bath
Tub in Which She Was Found Bound
and Wounded.

CHICAGO, Ill., March 6.—The strangest mystery in recent Chicago police records is the case of 18-year-old Ella Gingles. Was she the victim of a plot to kill her or sell her into white slavery, or was she looking for sympathy and notoriety?

The facts briefly are these: Ella Gingles, who has only been in this country a short time, stated to friends who had been interested in her that she was the victim of a plot to kill her or sell her into white slavery. Wednesday she was discovered in a public bath room in the Wellington hotel clad only in a night gown bound in the tub, which was half filled with bloody water. She was removed to the Frances Willard hospital, where she now lies at the point of death, with over twenty-five wounds or more or less serious nature apparent on her body. Patrick H. O'Donnell, her attorney,

insists that she was attacked with intent to kill, but circumstantial evidence would lead the police to think that the wounds are self-inflicted. Her friends are assisting the police in clearing up the mystery and it remains to be seen whether a fraud or a plot will be unearthed.

WIFE TOO FOXY FOR HUBBY WHO SOUGHT TO TRAP HER

HAS OFFICER AT
TRYSTING PLACE

PITTSBURG, Pa., March 6.—Mrs. Mary E. Werling, wife of Daniel Werling, a broker, reported to the police that she was being annoyed over the telephone by somebody trying to make an appointment with her. She was advised to meet the person. As a result Werling and H. B. Duff, a private detective, today are under arrest.

Since separating from her husband four months ago, Mrs. Werling has worked as a domestic. The broken and his wife are now seeking divorce from each other. When Mrs. Werling kept the appointment last night, the police say, she was confronted by her husband, Duff and an officer who placed her under arrest. Detectives, who accompanied Mrs. Werling, then arrested the broker and Duff. Mrs. Werling was released, but her husband and the private detective were held for a hearing.

BABY GIVEN WITH LUCKY NUMBER IN OHIO THEATER

HUMANE SOCIETIES
ARE WROUGHT UP

CLEVELAND, March 6.—For the past week local philanthropists and humane societies have been agitated by the news that a Cleveland theater would award a six weeks old baby to the holder of a certain coupon at last night's performance. Notwithstanding many protests, the management persisted in carrying out its plan. It was announced that if the holder of the winning number did not desire the prize it would go to the holder of the next number.

and so on. When the winning was read off the possessor, an aged bachelor, arose and hastily left the auditorium. Several others withdrew for the same reason, until a young man was found who expressed willingness to take the babe and give it proper care.

The manager came forward and declared that he had been questioned and found a fit foster parent. "Don't clap," he begged, "back here there may be hearts that are breaking."

Then amidst breathless silence, the infant was brought out, decked in white and lustily screaming. It was a baby pig.

Here's an Old Story with a Modern Moral

Many years ago, in the land of cherry blossoms and poppies, there lived two frogs, a wise and a foolish one. One day, by accident, they fell into a pan of milk that carelessly had been left on the floor by the dairy maid.

Sputtering about the stupidity of mankind, the foolish frog sank to the bottom and died. Educated in the school of life the wise frog had learned the three fundamentals of success—determination, persistency and consistency. He, at least, was willing to give mankind a trial before judging, and with measured stroke, began to paddle. The story is an old one. You remember how the following morning the dairy maid was surprised to find in her pan a golden lump of butter on which sat a frog croaking merrily.

ELLIOTT RECEIVES ENCOURAG-
ING LETTER FROM DRILL

EXPECTS DECISION TODAY

MONEYED MEN ARE INTERESTED
IN TEAM

LAWYER CERTAIN OF SUCCESS

Writes President of League That
Deal Will in All Probability Go
Through

A letter from Attorney Lewis Drill today threw a tiny ray of hope into the gloomy baseball situation. Mr. Drill writes that he has made all arrangements for St. Paul and that Mr. Hanson of Minneapolis has been out of the city, but that he would devote his entire time to the matter and a decision would be reached today. Mr. Drill seems to be very favorably inclined toward the situation and says that if the people interested have the money to invest in a team, and he seems to think they have, he expects to have little trouble in bringing them over. He says that Mr. Ritchie of the Minneapolis Journal has become interested in the matter and may go in partnership with Hanson in taking over the club.

Evidently President Elliott looks upon the situation favorably or he would not postpone the time to next Monday. Attorney Drill writes that the men named are intending to put a team in St. Paul anyway, and that he expects to land them on the Minnesota-Wisconsin league proposition.

Safford Signs.
Joe Safford, the prospective manager of the La Crosse club, will probably sign his contract this afternoon. President Rooney expects to have little trouble in regard to the salary question as the matter has been just about settled upon. Safford has played in four of the teams of the State league, namely Oshkosh, Freeport, Rockford and La Crosse. His fielding average for last season was .985, while he batted .249. He is considered one of the headiest men that played on the local team last season and his selection as manager is received with much joy by the fans.

President Rooney has completed a list of the players who will try out with the La Crosse team next month. The men number over 30 and are nearly all promising:

Outfielders:
Victor Hage, Chicago.
H. A. Ekholm, Faulkton, S. D.
Harry Weaver, Martins Ferry, O.
Edward Kline, Galesville.
William Brinkley, Reading, Pa.
H. Telthorst, St. Louis.
Ernest Cotton, Melrose.
Alva Knapp, Corydon, Ind.
A. Hummel, St. Louis.
Willis E. Spence, La Crosse.

Pitchers:
Harvey Hildenbrand, Lyle, Minn.
Walter Knoblauch, Milwaukee.
D. H. Peterson, Roscoe, Ill.
Claude Brown, Princeton, Ind.
Wilbert Schardart, Cleveland.
J. R. Conway, Waukesha.
Sam Brechenwede, Springfield.
Merle Spaid, Shawtown, O.
Catchers:
J. E. Wolff, Clifton, Ill.
Archie Anderson, Whitewater.
Dan Vincent, Tomah.

First basemen:
Bernie McCann, Wellsley, Mass.
Wm. Welch, La Crosse.
C. Herling, Elgin, Ill.

Second basemen:
W. D. Johnson, Ferryville, Wis.
Abe Delves, Chicago.
Shortstops:
Ed. Ritter, Milwaukee.
H. W. Larsh, Des Moines.
Joseph Kelleher, Philadelphia.

Third basemen:
Edward Day, Odanah, Wis.
William Shelton, La Crosse.

SPECIAL SESSION TO REVISE TARIFF

"I, WM. H. TAFT, PRESIDENT,"
ISSUES FIRST PROCLAMATION

CONGRESS SESSION MAR. 15

New President Calls Attention to Ex-
traordinary Necessity of Ac-
tion on Tariff

WASHINGTON, D. C., March 6.—President Taft issued his first proclamation this afternoon, calling the 61st congress in session on March 15 for the purpose of considering the revision of the tariff.

The proclamation reads as follows: "Whereas, public interests require that the congress of the United States should be convened in extra session at 12 o'clock noon, on the fifteenth day of March, 1909, to receive such communications as may be made by the executive;

"Now, therefore, I, Wm. Howard Taft, president of the United States of America, do hereby proclaim and declare that an extraordinary occasion requires the congress of the United States to convene in extra session at the capitol in the city of Washington, on the fifteenth day of March, 1909, at 12 o'clock noon, of which all persons who shall at that time be entitled to act as members thereof, are hereby required to take notice."

WRITES POEM IN SHADOW OF DEATH

Razor was found guilty of man-
slaughter.

MEDINA, Ohio, March 6.—Few prisoners have awaited the verdict of a jury that may announce their doom more coolly than young Guy Razor, who has been on trial here for the past three weeks for the murder of his sweetheart, Orie Lee. The jury retired at 4 o'clock yesterday afternoon and was still out when the prisoner took his midday meal today. Meanwhile Razor enjoyed a good night's sleep—ten hours—played a game of cinch—and won—and started a poem.

As he sat at the window of his cell today watching the window of the jury room across the way the youth began a poem he named "A Dream in Prison." He had the first verse written when his sister called and interrupted him.

This is what he wrote in the shadow of the electric chair.

"It's hard to be shut up in prison
Away from the bright sunlight,
With strong bars all about you,
And the strong iron door shut tight."

BEVERIDGE HAS A MAN WHO'LL FIGHT

INDIANAPOLIS, Ind., March 6.—There will be no halt in the prosecution of the owners of the Indianapolis News, Smith and Williams, if Senator Beveridge has his way. With the resignation of District Attorney Keating because he is not in sympathy with the government's method in reaching Smith and Williams for punishment in the Panama libel cases, Senator Beveridge, who will name a successor to Keating, has rushed forward with the name of Charles W. Miller, former attorney general of Indiana, who will accept and carry out the instructions of the department of justice in regard to Smith and Williams.

WIRELESS TELLS OF DAMAGE BY STORM

BALTIMORE, Md., March 6.—Damage by the recent storm is estimated to have been \$2,000,000 in and around Baltimore. Two more deaths were reported today as a result of injuries received in the storm. Thousands of men are at work repairing the railroad and commercial telegraph lines.

The gale on the bay was the worst in years. A large number of small craft are stranded on shore. Oakley Haines, managing editor of the Sun, died today.

The Baltimore Eastern league club has bought Shortstop Lewis from Philadelphia.

BIG HAT FACTORY MAY COME TO CITY

BIG HAT BUYERS IN CONFER-
ENCE TODAY

WITHOUT PLANS AT PRESENT

PLAN ERECTION OF LARGE FAC-
TORY HERE

TROUBLE IN THE EAST CAUSE

Two of Biggest Northwestern Buyers
Plan to Establish Big Base
of Supply Here

A \$100,000 hat factory for La Crosse, employing expert labor and coming here without a "bonus" from the citizens, is the splendid proposition which developed today when two of the largest hat buyers in the northwest were here in conference with F. A. Wenzel, head of the La Crosse Hat & Haberdashery company.

While the plans are yet in the embryo and the names of the promoters of the plan are being withheld for the present, Mr. Wenzel said this morning that he expected to leave next week for another conference and that something much more definite will be announced soon.

At present the trouble in the eastern hat centers makes it impossible for western dealers to get sufficient hats and within the past few months the La Crosse Hat company has been forced to turn down a \$10,000 contract for lack of facilities. The local company has on file scores of letters from various hat dealers and jobbers throughout the west asking for large orders, but the present limited facilities of the concern make it impossible at present to even consider the orders. La Crosse is well suited to the manufacture of the finest grades of hats as the water here, used in manufacture, is of the best quality for the purpose and the finest coloring processes may be used.

Mr. Wenzel is one of the best known hat makers in the northwest and has been acquainted with the promoters of the new factory both in the east and before he came to La Crosse. They want him to take charge of the factory in case the decision to locate here is ratified and it promises to be one of the largest concerns in the city.

MADISON GETS BIG FOREST LABORATORY

WASHINGTON, D. C., March 6.—It was announced at the forests products laboratory for investigation of checking wood waste and devising better utilization of timber would be located at the University of Wisconsin, Madison, Wis.

The service will transfer the experimental work now being conducted at Yale and Purdue universities to the new location, abolishing the laboratories at the latter places.

A force of approximately 40 experts will conduct the work at Madison and advanced university students will have use of the laboratory.

JAPS CONGRATULATE TAFT.
SEATTLE, Wash., March 6.—The Seattle Japanese today sent congratulatory telegrams to President Taft and Secretary Ballinger.

WEATHER FORECAST

Coldest in La Crosse, 36; warmest, 44; wind, 6 miles; rainfall, trace.

Coldest in U. S.—12 at Houghton; warmest, 86 in Abilene.

Forecasts today:
Wisconsin—Partly cloudy and slightly cooler tonight, Sunday fair.
Minnesota—Fair tonight and Sunday; cooler east portion tonight.
Iowa—Fair tonight with cooler east portion; Sunday increased cloudiness and probably unsettled.

To Build You Up for Spring

Begin taking Hood's Sarsaparilla today. It will do you good. The heavier living and closer confinement of the winter, the effects of colder, damp, changeable weather on the pores of the skin, and the harder work of this season are probably telling on you. Hood's Sarsaparilla, taken just now, will give your system just what it needs and must have, and will help you over this hard spot—the rough ground, as it were—and quite likely save you from a serious illness later. "A stitch in time saves nine" is a wise old saw; therefore, don't wait, but begin to take Hood's Sarsaparilla now. It purifies and enriches the blood, restores the appetite, and gives health and strength. It effects its wonderful cures, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than 20 different ingredients, each greatly strengthened and enriched by this peculiar combination. These ingredients are the very remedies successful physicians prescribe for the same diseases and ailments. Begin taking Hood's Sarsaparilla today. Get it in the usual liquid form or in chocolate tablets known as Sarsatabs. 100 Doses One Dollar.

JOCKEY CLUB SEEKS LOOPHOLE IN LAW

WILL ANNOUNCE DATES FOR SUMMER RACING IN MAY
GET AROUND BETTING LAW
Race Promoters Are Keeping Quiet While the Legislature Is in Session

NEW YORK, March 6.—It was learned today that the Jockey club not only has decided that no dates will be awarded to the race tracks in this state for racing next summer until after the legislature adjourns, but that when the dates are finally awarded they will be only for the spring and summer months. But while this is being done preparations for the resumption of the so-called "sport of kings" are being made by all of the tracks, so that when the racing actually begins it will be of the highest class possible. It is generally believed that there will be betting in some form on the races this summer and expert lawyers are now examining the laws to decide just how far the bettors may go. The fact that the legal decisions handed down since the adoption of Gov. Hughes' anti-racing bill have invariably favored the racing men is encouraging. The latest scheme devised for permitting bookmaking is a modification of the English walk-about system. The supreme court ruled that it was not a violation of the law to print odds on a racing program, but it has ruled that the violation is in recording bets. It is now proposed by the members of the Metropolitan Turf-association, the Bookmakers' association, to revert to the old pool-room method. That is, to have the prospective bettor make a memorandum on a sheet of paper, pin it to his money and hand it to the man who exposes the odds. By this method it is held that the law would not be violated. Unless some plan for betting is devised there will be very little racing about New York this year. The public will not go to see the ponies run unless they have a chance to get monetary interest. Gov. Hughes is the real stumbling block and while the legislature remains in session, every one connected with the racing game is keeping still. All attempts to get the track owners or the leading bookmakers to talk at this time have been futile. "Wait until after the first of May when they get through at Albany, and we will tell you all about it," they say. In the meanwhile the big men of the Jockey club are in Mexico planning for the big racing that will come off there. Next fall and winter there will be higher class racing about the city of Mexico and in other parts of the southern republic than there has been in this vicinity for a couple of years. One race proposed, the Mexican Derby for three-year-olds over a mile and a half course, will be worth from \$75,000 to \$100,000 to the winner and the intention of the Mexican government, which is backing the plan, is to make the races there fully as attractive as they ever were in this vicinity. So, if the plans of racing men to put the sport on a safe basis about New York fail, there will be an exodus to the south next fall and the big tracks about here will go on the market for building lots.

Final scores:

OUT OF TOWN TEAMS BEGIN TO ARRIVE WHITE SOX VICTORS AGAINST TWO TEAMS

BIG DELEGATIONS OF BOWLERS REACH PITTSBURG TODAY
CHICAGO BOWLS TONIGHT
Tournament Will Begin in Earnest Next Week—Women Bowl and Attract Attention

PITTSBURG, Pa., March 6.—The first big out-of-town delegations to the ninth annual tournament of the American Bowling congress will arrive in the city today. At 8 p. m. a special train is expected from Chicago bearing Jim O'Leary and a number of teams who, if past reputations are taken as a criterion, can be expected to shatter a few records. The Windy City teams which will take the alleys tonight are the O'Donnells, O'Learys, Brucks and the Lipmans. While these teams will roll in the five men events tonight they will not enter into the two men and individual contests until early next week.

There was nothing sensational by yesterday's bowling and no new records were hung up. A feature of Friday's program was the appearance of two women's teams on the alleys. They were the Horton ladies of Braddock and the Shiloh ladies of Mount Washington. The women's fivers were handsomely supported, and they did pleasing work. Miss Horton was high with 157, but Miss Erwin was a close second with 146. President August Herrman, chief executive of the congress, is expected here today. Rouse and Cook, Toledo 1,095
Rout and Zimmerman, Toledo 1,091

There was nothing sensational by yesterday's bowling and no new records were hung up. A feature of Friday's program was the appearance of two women's teams on the alleys. They were the Horton ladies of Braddock and the Shiloh ladies of Mount Washington. The women's fivers were handsomely supported, and they did pleasing work. Miss Horton was high with 157, but Miss Erwin was a close second with 146. President August Herrman, chief executive of the congress, is expected here today. GONG IS RESCUER OF MICKEY GANNON

NEW YORK, March 6.—Mickey Gannon, hailed as the knockout puncher, is today thanking his stars that the gong saved him from being sent into dreamland at the finish of the ten round bout with Cyclone Johnnie Thompson of Chicago. For eight rounds the exhibition was a tame affair. Then Thompson began to send in his punches. The final blow came just as the gong sounded finishing the contest, and Gannon was on his knees all but out when the bell rang.

CHAMPION PAPKE STARTS TRAINING

LOS ANGELES, Cal., March 6.—Billy Papke, former middleweight champion, is here today and will go into training for his fight with Jim Flynn on March 19. Papke appears to be in perfect condition. Flynn has been in training here for several days.

TIGERS START FOR TRAINING CAMP

DETROIT, Mich., March 6.—The Detroit Tigers this afternoon start for their spring training camp in San Antonio, Texas, where, with hard practice, Hughie Jennings hopes to make them into a three pennant winning ball tossing aggregation. About ten men start from here in a private car, Rossman and Winter now being the only absentees. Rossman has written that he will be here on time but it is said there is a big deference in what money he wants and what money Jennings wants to pay. The spring training will last about 35 days and it is estimated that its total expenses for the time will be nearly \$6,500. Jennings has agreed that several of the other players shall meet the team in San Antonio.

SPANISH SOUTHPAW IS NAPS' LATEST

MOBILE, Ala., March 6.—Frank Andrade, the new Spanish southpaw the Naps have imported from southern California, will be one of the most striking figures in the American league circuit this season. Although he weighs some 180 pounds he is only about five feet high. He is dark, of course, and uses a decidedly Spanish accent. He will be 22 years old in June.

FREDDIE WELSH PUTS BRONSON TO SLEEP

NEW ORLEANS, La., March 6.—Managers of Ray Bronson, the Indianapolis fighter, are angling today for a return match with Freddie Welsh, the English scrapper who won from Bronson last night in thirteen rounds. Bronson showed considerable class in the early part of the fight, having all the best of the mill up to the eighth round. He began to weaken

AT THIS STAGE AND WELSH POURED LEFTS TO THE NECK AND FACE THAT GRADUALLY WORE THE HOOSIER BOY DOWN. IN THE THIRTEENTH BRONSON WENT DOWN FOR THE COUNT OF NINE FOR TIMES AND THE FIGHT WAS AWARDED TO WELSH. PHIL BROCK, OF CLEVELAND, HAD CHALLENGED WELSH.

FIRST WARDERS DEFEAT JUNIORS

In an exciting game of basketball the First Ward second team defeated the Y. M. C. A. Juniors by a score of 10 to 7. The game was played at the First ward school. Evjen and Ott starred for the first ward and C. Gardner for the Juniors. The lineup for the First Ward is as follows: Left forward, Ott, captain; right forward, Evjen; center, Dittman; left guard, Fuhlbrigge; right guard, Merman. Referee, Be dessem. Umpire, T. Gardner. Time keepers, Swords and Johnson. Don't feel sorry for a man because he is cheap. He doesn't know he is cheap; he thinks he is superior.

FOR SICK WOMEN

Of course, well people don't need a tonic. But sick people, and especially sick women, frequently do. That feeling of weakness, tiredness, or languidness, that seems to make every movement or thought an effort, is much more than merely disagreeable. It is a sign of dangerous weakness, and should be promptly treated with Wine of Cardui. Mrs. Annie Vaughan, of Raleigh, N. C., writes: "I cannot find words to express my deep gratitude

THE STEPHENSON ELECTION

In view of the manner in which his election has been procured, nobody can begrudge Mr. Isaac Stephenson the United States senatorship which has just been delivered to him. He is welcome to all the honor which, in the circumstances, his selection carries with it. Where is the good citizen throughout the whole length and breadth of this state who envies him?

Some men honor public office. Public office sometimes honors some men. Mr. Stephenson does not honor the senatorship nor does the senatorship honor him. He is not fitted for the office. He has done nothing to deserve it. The manner of his election robs the office of any distinction. It is for these reasons that good citizens will not begrudge Mr. Stephenson his success.

Nor will they envy his supporters their success. There is the joy of transitory victory. They have simply played a game and they have won. We hope that they will cheer and jubilate while they may. Every one of their names is familiar to the people of Wisconsin. The political strikers are fancying that they have deceived their constituents and have thrown them off the track, but they will be filled with surprise and consternation when they find how much the public knows and how disgusted it is.

It is not difficult to analyze the causes that brought victory to the Stephenson forces. Back of Mr. Stephenson was a most powerful organization. It represented Big Money in general and Special Interests in particular. In it were the shrewd politicians who ran with the old ma-

chine. The organization had in plenty those great sinews of war, men and money.

Against this there stood one great force—Public Sentiment. The people felt that the state's pride and honor were involved in the contest. But theirs was an inert force. The people were unorganized. They could not believe that their representatives in the legislature were so bound that they would go to the length of selecting Mr. Stephenson for senator while charges that he had violated sections of the criminal laws of the state were being investigated by a committee which those representatives had created for the purpose. Attempts were made to deceive them, but they were only partly successful. It was something unthinkable, the election of Mr. Stephenson under these circumstances, and most of the people protesting to the state law makers took it for granted that their representatives could not be induced to do so reprehensible an act.

But now the thing has actually been done and indignation will swell and grow. The people of Wisconsin are right, not wrong. They are Progressive, not Reactionary. They can be depended upon to act.

It is victories like the Stephenson campaign and election that Big Money must have to stir the people up to the point of killing it.—Milwaukee Journal.

INTERVIEWS THE PRESIDENT

The following interview given Gilson Gardner by Theodore Roosevelt on Feb. 3, while he was still president, was obtained with the understanding that it should not be published until after Tatt's inauguration, precedent preventing the president from being interviewed. At the suggestion of the president the interview was reduced to writing, as follows:

Q. What, Mr. President, is your idea as to the functions or duties of an ex-president?

A. Those of any good citizen. His duties remain what they always have been—to do his share of work for the common good in whatever position he may happen to find himself. But he has the great added responsibility of the obligation due from him to the country, because the country has signally honored him, and so long as he lives he should never lose sight of this obligation.

Q. Then you do not propose to become a "sage"?

A. Certainly not, if by that term is meant a has-been. I step back into the ranks, but I do not quit the army, and I shall certainly continue to fight for what I deem to be right and continue according to my abilities for what I deem the good of our people.

Q. Do you relinquish office with a sense of relief?

A. No. I leave an office which I have thoroughly enjoyed. I doubt if any president has ever more thoroughly enjoyed the presidency. It seems to me that any man ought to enjoy to the full the opportunity to do a great work which is pre-eminently well worth doing. If I had felt that I could conscientiously try for another term I should certainly have tried for it. But I wish also to say that no president ever left the office with a lighter heart than I shall when I leave or looked forward to the future with more eager interest and anticipation than I feel. I do not sympathize with the man who either is, or makes believe to be, glad to lay down a great office, and still less do I sympathize with the man who, having been given the extraordinary and crowning chance of holding such a great office, feels dejected and cast down because the time of great work has come to an end. As, of course, it sooner or later must come to an end, I am profoundly grateful to the people of the United States for what they have done for me in putting me into the presidency. According to the measure of my abilities I have served them faithfully during the last seven and a half years. I shall never for a moment forget what I owe them, and in private life I shall continue to try to pay the debt. They, of course, gave me the greatest chance that any American can ever have. I appreciate this to the full. I have enjoyed my work to the full and now I shall continue in private life both to work and to enjoy myself.

Q. Have you any parting word for the people?

A. No. So far as my words have any value they have been said already and their value must lie in the fact that in so far as lay in me I have made my deeds correspond with them. And still if I had any advice to give I would say to any one, Don't

FALSE THEORIES

Lead to Worthless or Harmful Remedies.

Stimulating the scalp may allay the itching of the dandruff, but that does not cure the scalp. The disease won't yield to quinine or capsaicin nor alcohol, because it is caused by a germ or parasite. To cure dandruff the germ must be destroyed. Until recently there was no hair preparation, or dandruff cure, or hair restorer on the market that would kill that insidious germ that dries up the scalp in little scales called dandruff, and absorbs the vitality of the hair, causing falling hair, and finally baldness. Newbro's Herpicide is the only really scientific preparation to cure dandruff, prevent falling hair and baldness. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Hoehschel Bros., special agents.

WEAK STOMACHS

Some time, through neglect, or sympathetic weakness, it is impossible for the stomach to assimilate what it most needs. In such cases it becomes necessary to administer a neutralizing mixture to prevent the formation of gas in the intestines, and give the stomach an opportunity to resume its functions. For this purpose the following formula has been recommended: One-half ounce sodium phosphate, one ounce essence of scallmint, one-half teaspoonful baking soda, enough pure water to make eight ounces. It has been claimed that this simple mixture, taken two teaspoonful before each meal, will stimulate the gastric juices, check fermentation in the intestines and thus aid the stomach in assuming its natural functions.

Cut this out, in case you may sometime need it. Any druggist can make up this mixture at a cost not exceeding 60 or 65 cents.

be cynical; don't leave your duty to the other fellow; and always do the duty nearest at hand. Have plenty of common sense, but have high ideals also. First of all earn your own livelihood and support your wife and children—and if you are the right sort of a man I earnestly hope you have a wife and children, but don't forget that in addition to doing your duty to your family and yourself you have to do your duty to your country. There are many problems for the government to solve, but the most important problems before us must be solved by the people themselves—by each man or woman doing his or her full duty wherever and whenever the need, big or little, may arise.

IMPORTANT COURT DECISIONS

SUIT CLUB IS A LOTTERY. In Grant vs. State, 112 Southwestern Reporter, 1068, it appeared that accused, a tailor, was operating a suit club in connection with his business.

Each of the 52 members paid \$1 a month. On Saturday night numbers ranging from 1 to 52 were put into a bag. Whoever held a number corresponding to one drawn from the bag received a suit. If a member were unfavored by fortune in the drawing he received a suit when he had paid \$26. The court of criminal appeals of Texas, declaring this scheme illegal, held that every drawing where money or property is offered as prizes to be distributed by chance according to a specified scheme or plan, and a ticket or tickets sold which entitles the holder to money or property, and which is dependent on chance, is a lottery.

A Religious Author's Statement

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy." O. T. Erhart.

ARE TRUST COS. BANKERS?

MADISON, Wis., March 6.—(Special.)—The old question which has been before the legislature for several years, whether the trust companies of the state are doing a banking business, will come up for consideration before the legislature this year. Several bills aimed at driving the trust companies out of the banking business have been introduced, the most important of which has been placed before the assembly by D. C. Coolidge of Dunn county.

AFTER TIMBER THIEVES.

CHIPPEWA FALLS, Wis., March 6.—A gang of timber thieves that has been infesting the woods near here for several years may be broken up by the arrest yesterday of John Sonntag and Peter Gillis, alleged to be the ring leaders. The complaint was made by Albert Butcher, president of the Citizens' State bank of Boyd. Land owners recently united for protection against thieves.

KILLS INTRUDER.

GIULETTE, Wis., March 6.—William Belkey early Friday morning shot and killed George Schultz, whom he surprised in his home on returning from work. Schultz had tried to kill Belkey with a club but failed in his attempt when Belkey secured his gun and shot Schultz in the neck, killing him instantly.

SPOTLIGHTS

Great Authors

All theater goers are interested in a great play, written by a great author, one which has been played by such artists as the elder Sothorn, Goodwin, Willard and Charles Wyndham, before the crowned heads of Europe and the elite of America. Such a play must possess genuine merit, elevating the stage, the actor and humanity, as only the work of the true artist can be used both in the rendering of the play and in the construction of the stage effects. So the actor, the actor stage manager, costumer, musicians and electrician can do, has been done to equip the eminent actor, Mr. Clifton Mallory for his appearance this season in the great English comedy, "David Garrick." Each actor in Mr. Mallory's support has been chosen, with but one idea, he must look the part, as drawn by the great author, T. W. Robertson. The beautiful on the stage as in nature, deserves admiration, and all lovers of the highest and grandest in the world of the drama, should see this production at the La Crosse theater tomorrow matinee and night.

Frederick Ward

Frederick Ward is not only one of the ripest Shakespearean scholars in this country, but he is a speaker of great power and interest. To hear him lecture, especially when he takes his theme from the works of the immortal bard, is as great a treat as to see him act, and his generous readiness to help any worthy object is one of the causes of his exceptional popularity with the intelligent and cultured people of this community. He is one of the very few actors who think more of their art and its promotion than of themselves and their personal convenience. Off the stage he is a courteous, genial gentleman, living quietly and decently, as a gentleman should, and in leisure hours cultivating those graces of mind and character which come only from study, reflection and ennobling associations. In every city in the country where he is known he is admired. Extract from Editorial in the Oregonian, Portland, Ore.

"Parsifal"

It was in the year of 1857 that the immortal Richard Wagner first conceived his idea relating to the grand possibilities contained in the legend of the "Holy Grail" for a wonderful spectacle and drama. It was not until 25 years later, namely 1882, that his idea was carried out to his satisfaction and the world was given the glorious work of "Parsifal." It is said that his first intention was to present "Parsifal" simply as a dramatic production, but was induced later to change his mind and produce it in combination music form. By this doing so, the world gained two grand productions instead of the one. It will forever remain as the grandest of all music compositions. It will as surely stand for all time as the grandest drama ever written. It requires a trained mind, a cultured musician, to enjoy the music of Wagner. One must thoroughly understand a thing to equally enjoy it. But the simplest type in dramatic experience can understand the exquisite story of "Parsifal" and understanding, cannot fail to enjoy it. It is this very quality, simplicity, of the story, and plot, that endears the play of "Parsifal" to the hearts and souls of all those who witness it. There are no social problems to dissect, neither are there any intricate or mysterious actions seen on the part of any of the characters in the play. But as a spectacle that appeals to the visual senses, as a play that in its very naturalness, soulful heart interest, absorbing and thrilling plot that brings the color to the cheeks with healthy excitement, that quickens the heart's action with every ennobling instinct, and interest watching the gradual unfolding of the beautiful story, it stands without a peer in the dramatic firmament. Such is "Parsifal," the play that required a quarter of a century of its author's genius' life to make it what it is today—the drama of the world.

The "Parsifal" Engagement Here

is for two performances at the La Crosse theater, March 13, matinee and night.

QUIPS AND CRANKS AND WANTON WILES

Under the Yoke

I cannot wear the old clothes
I wore last spring, alack!
Because my waistband now has crept
Quite half way up my back!
And as for sleeves, more dolorous
Than ever is my song—
Whereas they have been full and
short,
Today they're small and long.

Even one's anatomy is not
Exempt from sudden change:
We take on flesh, or cast it off,
In manner passing strange!
Dame Fashion says: "You must be
fat,
Or gaite, or quaintly lean,
More Botticelli—and lo!
No other type is seen.

Oh, Mother Eve, why did not you
Withstand the serpent's wiles?
Then we, your daughters, had not
known
This curse of varying styles.

When the Phrenologist Fell

Mayor Rebyrn of Philadelphia, the owner of the record-breaking trotter Ed Bryan, told at a dinner a horse story.

"A farmer visited a phrenologist," he said. "He had heard that the phrenologist thought of buying a horse. He had his head examined and his bumps revealed surprising things."

"Your tastes are the simple, homely and pure tastes of a farmer," said the phrenologist, "and a farmer I take you to be. M. I. not right. Aha, I thought so. You are unready and faltering in speech; you find it difficult to express the simplest ideas. You are sadly deficient in judgment and have no knowledge of human nature. Your innocent and trustful disposition renders you an easy dupe to designing men, and your own perfect honesty prevents you from either suspecting or defrauding any one."

"The phrenologist the following week bought a horse from the farmer. The horse was a knock-kneed. It was 25 years old, it had a bad temper, and it balked. Though the farmer had only paid \$15 for the animal he secured without difficulty \$150 from the phrenologist for it."

"It's wonderful," said the farmer to himself, as he hastened toward the bank to deposit the money—"It's just wonderful that a man should know so much about men and not know a thing about horses."—Detroit Free Press.

A Great Scholar

The new minister in a Georgia church was delivering his first sermon. The darkey janitor was a critical listener from a back corner of the church. The minister's sermon was eloquent, and his prayers seemed to cover the whole category of human wants.

After the services one of the deacons asked the old darkey what he thought of the new minister. "Don't you think he offers up a good prayer, Joe?"

"Ah, mos' suttainly does, boss. Why dat man axed de good Lord fo' things dat de older preacher didn't even know. He had!"—Everybody's Magazine.

A French general's wife, whose tongue lashing ability was far famed, demanded that an old servant, who had served with her husband in the wars, be dismissed.

The old Frenchman clasped his hands to his heart with dramatic joy.

"Me—I can go!" he exclaimed in a very ecstasy of gratitude. Then suddenly his manner changed, as with utmost compassion he added:

"But you—my poor general, you must stay!"—Success Magazine.

The Intellectual Age.

The women of an Indiana town recently organized a literary club, and for a while everything was lovely.

"Alice," asked the husband of one of the members, upon her return home from one of the meetings, "what was the topic under discussion by the club this afternoon?"

Alice, couldn't remember at first. Finally, however, she exclaimed: "Yes, I recollect! We discussed that brazen-looking woman that's just moved in across the street and Longfellow."—Harper's Weekly.

The Natural Inference.

A lady who had arranged an authors' reading at her house succeeded in persuading her reluctant husband to stay home that evening to assist in receiving the guests. He stood the entertainment as long as he could—three authors, to be exact—and then made an excuse that he was going to open the front door to let in some fresh air. In the hall he found one of the servants asleep on a settee.

"Wake up!" he commanded, shaking the fellow roughly. "What does this mean, you being asleep out here? You must have been listening at the keyhole."—Everybody's Magazine.

really to them first of all; and I have neglected them terribly. Rupert suggests I should go back to my own little house, and have a chaperone to live with me. I supposed that Katherine would be quite enough, but from something that Rupert said, I fancied, perhaps, she had some new plans in her mind."

"I have heard nothing," said Mrs. Brenton.

She had listened to this speech with a confusion of feeling. Camilla's easy acceptance of a most difficult position was not, perhaps, so very extraordinary, but other people worked a little more slowly.

"I don't quite approve of the little house. Why not stay here?" Mrs. Brenton added.

"My dear Agnes! Have I not already outraged your friendship? Do you realize that you have been burdened with my children over a year?"

"What is a year! Besides, you know perfectly well there has been no burden. Haven't I been clamouring to have the children with me for ages? It has given both Dick and me a new spell of life to have these little souls about us, and if you will only make up your mind to stay on indefinitely, it will be a real happiness."

"Thank you, darling," said Camilla; "it sounds delightful. I will talk it over with Rupert when he comes."

She said this in the most natural way possible.

But Haverford was not at Yelverton for Christmas. He wired from the north that he was ill—had caught a violent cold, and was unable to travel.

He was not too ill, however, to forget his Christmas remembrances. Packages kept arriving by every post, and the children were in a ferment of excitement. They rushed to their mother as each new gift arrived, and Camilla confessed to Katherine that she was frantically jealous of the attachment between Rupert and the little creatures.

"Of course, it is the best thing that could happen, I know that; but, after all, they are my children, and I ought to come first. As it is, I believe I am not even placed now. Rupert comes first—before any one; you are second; and Agnes a good third."

"You are talking nonsense," said the young governess, in her calmest way; "the children love you more and more every day."

Mrs. Laura B. Wheeler, Winsted, Conn., who is in her 94th year, says that she owes the health and vigor she enjoys to the judicious use of the world's greatest tonic-stimulant, Duffy's Pure Malt Whiskey. She recommends it for nervousness.

In June, 1908, Mrs. Wheeler wrote: "We are very glad to write you saying that we have been using Duffy's Pure Malt Whiskey with marked improvement. Think it is a good remedy for nervousness. I am in my 94th year and am enjoying excellent health, thanks to your tonic stimulant and great medicine for the old."

Every testimonial is guaranteed genuine and is published in good faith with full consent.

Duffy's Pure Malt Whiskey

is the greatest strength builder and tonic stimulant known to medicine. It attacks the seat of the disease, drives out the germs and rebuilds the weakened tissues, in a gradual, healthy, natural manner. It is an absolute cure and preventive of consumption, pneumonia, grip, bronchitis, coughs, colds, malaria, low fevers and all wasting, weakened, diseased conditions, if taken in time.

It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system, is a promoter of health and longevity, makes the old young and keeps the young strong.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's an absolutely pure medicinal malt whiskey and is sold in sealed bottles only—never in bulk. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price \$1.00. Write Consulting Physician, Duffy Malt Whiskey Co., Rochester, N. Y., for a free illustrated medical booklet and free advice.

NEW DECORATIONS

With the first suggestion of spring in the air naturally you will be interested in the many beautiful new decorative ideas we are showing for spring. If you intend to paper your home you'll find the new paper designs more beautiful this spring than ever.

The new papers are for the most part quiet in color but rich in design, the figures are rather larger than before. Brown and green predominate in the darker papers, while for bedrooms and rooms where light is needed, lavender and lilac combined with paler green foliage decorations on a white ground will be much favored.

There is a decided tendency to recall the quaint striped papers of grandmother's rooms and many delightful patterns are here. Some of them are exact duplicates of the patterns of fifty years ago.

It will be a treat for you to see the beauties we are showing. We'll be glad to go through our samples with you and give you suggestions any time you'll come in.

Say if Trade From Salem Way is to Come to the North Side Road Must be Maintained

An extensive discussion has begun between the north side business men regarding the closing of the West Salem road.

It is the opinion that if the road is to continue to be closed it will effect their farmer trade which is very valuable and it is the intention of some of the business men to petition the county supervisors to have the road taken as a county highway. At the present time the town of Campbell is overburdened with roads and refuse to take care of it longer.

In The Morning

Try a Charcoal Lozenger and a Glass of Water if Your Breath is Foul and Your Mouth Tastes Bad.

Immediately upon arising in the morning, should you have a bad breath and a disagreeable taste in your mouth, try a charcoal lozenger. Simply chew the lozenger up as you would so much candy and drink a glass of water, washing it down into the stomach in this manner. The effect is almost magical. The mouth becomes sweet and the breath pure and fragrant in a very short time.

After a few days you will notice that your stomach is digesting food much better. All traces of gases and sour stomach will disappear, and the perfect assimilation promoted by a healthy stomach will build up strength and muscle, and your bad breath and coated tongue will be a thing of the past.

Give Stuart's Charcoal Lozenges a trial, results are assured, and positively no bad effects can arise from the use of charcoal. Stuart's Charcoal Lozenges are made of young willow wood charcoal and pure, fresh honey, taken direct from the beehive. You may eat all you want, give them to every member of the family. They will cleanse and purify the stomach and keep it clean and sweet.

Stuart's Charcoal Lozenges are good for everybody at any time. Try them. For sale everywhere, 25 cents per box. Sample box will be sent free by mail upon request. Address F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

COOPERS SIDE OF CASE LOOKS DARK

SLAYERS OF CARMACK CAN'T EXPLAIN SOME THINGS

LAST TESTIMONY NOW IN

Arguments Will Be Made Monday and Jury Will Have Case by Next Wednesday

NASHVILLE, Tenn., March 6.—With the examination of two witnesses put on the witness stand soon after court convened this morning, the state finished its testimony in the case of Col. Duncan Cooper, Robin Cooper and John D. Sharp, charged with the murder of former Senator Carmack.

On the adjournment of court, it was announced that the arguments of counsel will begin Monday morning and the case will probably be in the hands of the jury by Wednesday night or Thursday morning of next week. Rebuttal proof has occupied the past two days and it is the general belief that the state's case has been materially strengthened. Conspicuous in this respect was the testimony of Miss Lee, the stenographer for Attorney Bradford, now one of Cooper's defending counsel, that Bradford had told her that "he could have killed Carmack with a little compunction as he would kill a snake."

Prosecutor McCann made the most of the point when in his argument as to the admissibility of the testimony he said: "And this is the statement of a man who testified on the stand that he was on friendly terms with Carmack. He is the man who would bring about an adjustment of the difficulties when he tells his stenographer that he was as friendly with Carmack as a snake."

The state attempted to show that Miss Lee's testimony was secured at a great personal sacrifice; that she voluntarily gave up a position paying her \$85 a month and sacrificed the friendship of certain people. While the court held the Bradford conversation competent, the circumstances surrounding Miss Lee's testimony were not allowed to reach the jury.

Would Shoot at Sight. In rebuttal it was proved that Mrs. Burch, daughter of Col. Cooper, had telephoned on the morning of Nov. 9 to Dr. J. A. Witherspoon, urging him to see Dr. Burch, her husband, and have him do all he could to prevent a meeting between Col. Cooper and Senator Carmack, saying that Cooper was armed and that he would kill Carmack on sight. This testimony was given by Dr. Witherspoon. Further it was developed that this information was delivered to Carmack by Frank N. Lander, who now holds the position occupied by Carmack when he was killed, that of editor of the Tennessean. Carmack's geniality, even within a few minutes before the tragedy, and total absence of fear or apprehension on his part were shown by several witnesses while Contractor Lewis, who was working near the scene of the tragedy, testified that it was so dark and gloomy that he could not recognize any figures moving about in close proximity to himself. The purpose of this testimony was to rebut the sworn testimony of John D. Sharp who, although much farther away than Lewis, said that he could see the pistols distinctly, even distinguishing that they were blue steel. The introduction of this testimony was fought bitterly by the defense, but the court finally ruled it to be competent.

Everyone connected with the case shows the effects of the long siege and the termination of the arguments in the trial, which will go down as the most bitterly fought legal contest, will be hailed with delight.

NEW YORK, March 6.—Has the long strain of fighting against overwhelming odds, the raising of hopes to the highest pitch only to have them shattered again by adverse fate had its effect on the magnificent brain of Albert T. Patrick, and is the former mayor of Sing Sing's death house slowly going mad?

This is the question that New York lawyers are asking themselves today and they are for the most part agreed that if his present application for his liberty, now pending before the appellate division of the supreme court in Brooklyn, is decided adversely, there is every likelihood that his mind will give way.

The long weary hours of confinement and the effort to prepare extremely technical legal briefs at night after he had worked hard handling lumber in the prison yard

ing him to see Dr. Burch, her husband, and have him do all he could to prevent a meeting between Col. Cooper and Senator Carmack, saying that Cooper was armed and that he would kill Carmack on sight. This testimony was given by Dr. Witherspoon. Further it was developed that this information was delivered to Carmack by Frank N. Lander, who now holds the position occupied by Carmack when he was killed, that of editor of the Tennessean. Carmack's geniality, even within a few minutes before the tragedy, and total absence of fear or apprehension on his part were shown by several witnesses while Contractor Lewis, who was working near the scene of the tragedy, testified that it was so dark and gloomy that he could not recognize any figures moving about in close proximity to himself. The purpose of this testimony was to rebut the sworn testimony of John D. Sharp who, although much farther away than Lewis, said that he could see the pistols distinctly, even distinguishing that they were blue steel. The introduction of this testimony was fought bitterly by the defense, but the court finally ruled it to be competent.

during the day has taxed his giant

mind. That was plain yesterday when Patrick, during the argument before the appellate division in Brooklyn, several times seemed to lose all control of himself and made incoherent declarations that moved even the stern black-robed justices to pity. It was plain throughout that the former lawyer was holding himself together with the greatest effort and when he was finally on the train enroute back to prison, having been given two weeks to prepare briefs to file with the court, he was so completely exhausted that he sat in a semi-stupor until the prison was reached.

It was stated at the prison today, however, that he has not and is not now under a physician's care. The warden and prison doctor refused to discuss his mental condition although it was intimated that there would be little to wonder at if the strain of the past seven years has not had its effect. Friends of Patrick in this city who believe absolutely in his innocence, if the present legal proceedings prove futile, as it is believed they will, are preparing to ask Governor Hughes for a pardon. They will urge that the evidence on which he was convicted was very weak and that the jury went wrong by the charge of Recorder Goff, which, in its entirety, was directly against the accused, than by the evidence in the case. They intend to ask the governor to read the evidence himself and in the meanwhile will circulate a petition among Patrick's friends for signatures asking for executive clemency.

Walter Gottlinger is entitled to special credit for his conception of the minstrel idea and working it out to a successful issue, and he no doubt feels more than repaid by the appreciation tendered his first real effort in important work. The smile that Manager Koppeltberger wore last night as he saw the crowds pouring into his theatre and struggle for tickets at the box office was probably the reflection of a pleasant vision of the condition of business when he gets in that \$35,000 new theatre next fall.

The following telegram was received by Mr. R. Russell yesterday at 4:30 p. m.:

"White House, Washington, D. C. March 5, 1908, 9 a. m.:

"Mr. Enrico Caruso Russell, America's Favorite Son and Tenor: Dear Sir: We regret very much your inability to attend the inaugural ball held at the White House yesterday, but trust you will make every effort to be present at the ball given the Foreign Legation, March 17th next. Ex-Senator Merrill H. Cram, now of the Department of War, sends you his regards. (Sgd.) MR. & MRS. WM. TAFT."

Rev. G. W. Thurow will hold services in the Onalaska church Sunday afternoon.

Willard Callen of Wood street is confined to his home by illness.

THE MINSTRELS

A HUGE SUCCESS

The amateur minstrel show at the Bijou last night was an unqualified success, and it lacked only a few performances to put it in line with the average professional minstrels touring the country. The house was jammed with people at both performances and hundreds were turned away. The stage presented a pretty appearance with its decorations of flags and multi-colored bunting and pennants. Kreutz's orchestra of ten pieces was seated on an elevated platform at the rear of the stage and immediately overlooking the circle. The strong chorus of eighteen fine male voices was emphatically the feature of the bill. An old southern melody served as a curtain raiser which was followed by Mr. L. Felzer singing Remick's latest song hit, "I Used to be Afraid to Come Home in the Dark, but Now I'm Afraid to Come Home at All." Two encores had to be responded to. "The Time the Place and the Girl," "Honeyland," "I Will Be True to You," "Gateway City Quartette," "Oh, You Coon," and "Kiss Your Minstrel Boy

SOCIETY

The events of the week have not
been wildly exciting, being confined
principally to church suppers, clubs
and a few mild bridge parties, "just
one table." Monday evening Fred-
erick Warde will give a recital upon
Macbeth under the auspices of the
Twentieth Century club at the La
Crosse theater.

MRS. KINDLEY ENTERTAINS.

church parlors Wednesday afternoon.
There were about 100 ladies present.

LUTHER LEAGUE ELECTS.

The Luther league held its annual
meeting Thursday evening at the
home of Nora and Max Benst, 508
South Fifth street. The election of
officers resulted as follows: Presi-
dent, Mr. Geo. Youngberg; vice pres-
ident, Anna Dahlstrom; secretary,
Mr. Victor Jacobson; treasurer, Mr.
John Strauss. It was decided to have
the illustrated lecture on "The Social
Problem and World Evangelism," the
last of the Luther league lectures to
be given this season, both in the af-
ternoon at 4:30 and in the evening
at 8 o'clock, Thursday, March 11.

ANNOUNCEMENT.

In social and religious circles there
is an increasing interest being mani-
fested in the last of the Luther league
lectures. They are on "The Social
Problem and World Evangelism,"
which is to be delivered in the Eng-
lish Lutheran church Thursday,
March 11, at 4:30 and 8 p. m., by
the Rev. J. J. Clemens. A circular
which has been issued announcing
this lecture states that this lecture
deals with the world's economics in a
manner which arouses deep
thought. A few La Crosse views will
be presented and among other places
to be described and visited are the
New York immigration station; the
crowded tenement homes in the con-
gested portion of the great metropoli-
s; Chinatown, San Francisco; St.
Louis, Mo.; a typical port of the
great lakes; a lumber camp in
northern Michigan. A study of the
world's economics will be made by
the use of five wonderful charts, and
the progress of the century will be
presented in a series of illustrations
taken from real life. Finally, a so-
lution of the social problem will be
discussed and illustrated.

VIOLINIST ARRIVES.

Mr. Harry A. Ross and wife of
Chicago arrived in the city this
morning to take up their residence.
Mr. Ross is the noted violinist who
will have charge of the violin in-
struction in the La Crosse School
of Music.

Y. W. C. A. NOTES.

The talk on Porto Rico given by
Mrs. E. S. Thompson Thursday eve-
ning at the association rooms was
most interesting and entertaining.
Articles of fancy work, clothing and
household utensils were displayed,
showing the customs of the natives.

Sunday afternoon the L. L. club
will have charge of the vesper ser-
vice at 4 o'clock. The bible class
will meet Monday evening at 8:00
o'clock.

Tuesday at 7:30 the Glee club will
meet. Some new music has been
procured and Mrs. Gilbertson will be
the instructor. All members of the
club are requested to be present.

Thursday, 7:30, the spring millin-
ery class will begin. All girls who
are interested are requested to leave
their name at the office or talk with
the secretary.

The membership is growing, but
there is still room for new members.

COSTUME PARTY.

Pearl Johnson.

LA CROSSE WOMAN'S CLUB.

Wednesday afternoon Mrs. Part-
ridge entertained the Woman's club
at one of their interesting "social
days." Each one present dressed to
represent some piece of music. There
were guessing contests relating to
music which proved to be very inter-
esting. Each guest also gave a
brief sketch of some noted musician.
Mrs. Lueck and Mrs. A. A. Bentley
rendered several instrumental num-
bers which were warmly applauded.

ANNIVERSARIES

Mr. and Mrs. Robert Small of Vi-
roqua celebrated their wedding an-
niversary last evening at their home.
About twenty guests were invited.
The Misses Ida Severson, Minnie Mul-
lan assisted in the serving. Mrs.
Small was formerly Miss Henrietta
Peterick of this city. Mr. and Mrs.
Small were the recipients of many
beautiful presents. The guests spent
a pleasant evening and departed
wishing the young couple many re-
turns of the happy event.

A number of ladies gathered at the
home of Mrs. W. R. Finch Wednes-

SURPRISE CONVALESCENT.

Mrs. Arthur Farnum who has
been confined to her rooms with a
fractured ankle was pleasantly sur-
prised by a number of her friends
who dropped in to relieve the mono-
tony of the sick room. They
brought their lunch and spent a de-
lightful informal afternoon.

SOCIAL BRIEFS

Mrs. John C. Stubbs of Chicago
was the guest of Mrs. Dr. G. H. Mil-
ler for a day. Mrs. Stubbs was for-
merly Miss Mary Patterson and re-
sided with her mother on South Fifth
street, between Jay and King streets.
In the early sixties they went to San
Francisco to live and later Miss Pat-
terson married Mr. John C. Stubbs,
a prominent railroad man, and for
many years traffic manager of the
Santa Fe road. Mr. Stubbs is now
traffic manager of the Harriman sys-
tem with headquarters in Chicago.

Mrs. Stubbs is a most interesting wo-
man and enjoyed talking over the
early days of La Crosse, and making
inquiries of her old friends. On ac-
count of her limited stay it was im-
possible for her to see many of them.
She returned to Chicago last evening.

Mrs. Louisa Withee and Mrs. W.
W. Withee will leave tomorrow night
for Kansas City. After a short stay
there Mrs. W. W. Withee and son
will continue their travels to Conrad,
Mont., where they will meet Mr.
Withee.

Are Drugs Necessary? Do Drugs Cure Disease? Can Nature be Assisted?

If people were born right and after-
wards lived right, there would be no
use for medicine. Every doctor knows
this. So do other well-informed people.

One thing more. When a person lives
wrongly, or acquires bodily weakness by
heredity, medicine can do only very
little. Medicine cannot cure him. Only
charlatans claim that medicines will
cure disease. Medicines may palliate
symptoms. Medicines may urge the
powers of Nature to resist disease. Medi-
cines sometimes arouse the efforts of the
human body to right itself against de-
rangements. This is the most that medi-
cine can do.

A man accidentally puts his finger in
the fire. Instinctively he wets his
finger in his mouth, then blows on it
for the cooling effect. This is no cure.
He knows it very well. But it makes it
feel better for the time being.

People eat unwisely. This produces
dyspepsia or indigestion. The only
rational cure is to eat correctly. Yet if
a palliative is at hand the pains of indig-
estion can be mitigated, the throes of
dyspepsia assuaged. The medicine can-
not be said to have cured. It simply
palliates disagreeable symptoms. The
cure must come through right living.

Take Peruna, for instance. No one
claims Peruna is a cure for dyspepsia.
But Peruna will stimulate the stomach
to perform its function properly. Peruna
will increase the flow of digestive
fluids, without which digestion cannot
be carried on at all. It will increase the
relish of food, the appetite.

It is admitted that all this can be
accomplished by right living, but there
are so many people who either will not
or do not know how to eat correctly that
a tremendous amount of good can be
done by the wise use of Peruna.

A stomach that has been frequently
abused performs the function of diges-
tion very lazily. Such a stomach allows
the food to remain undigested for some
time after it is swallowed. This leads
to fermentation of the food. Sour stom-
ach is the result. This goes on week
after week, until the blood is poisoned
with the products of fermentation. This
condition is very apt to produce rheu-
matism.

It is not claimed that Peruna will cure
rheumatism. Nothing will cure rheu-
matism but correct living. But it is
claimed that Peruna will assist a badly
abused stomach to perform its work.

If a person would correct his habits,
persist in right eating and temperate
ways, undoubtedly the stomach would
right itself, the blood would rid itself of
the poison, and everything would be
right. But as said before there are a
multitude of people who will not can-
not adopt right methods of living. To
such people Peruna is a boon. A dose
before meals will assist the stomach to
do its work. This prevents fermenta-
tion of the food, brings about normal
digestion, and all the train of ills that
follow indigestion disappear.

In other words, Peruna is helpful to
those who live badly, or those who
have acquired some chronic weakness.
Peruna does not cure, but it assists the
powers of Nature to bring about a cure.

The whip does not increase the power
of the horse to pull a load, but judi-
ciously used it stimulates the horse to
use his powers at the right time, with-
out which he could not have pulled the
load.

This illustrates the effect of Peruna,
or any other good remedy upon the sys-
tem. Taken at the right time, it calls
forth the powers of the human system
to meet the encroachments of disease,
and thus cuts short, if not entirely ends,
the diseased action.

No one should ever attempt to substi-
tute medicine in the place of right liv-
ing. In the end such an attempt will
prove a disaster. But an occasional use
of the right medicine at the right time
is a godsend, and no reasonable person
will undertake to deny it.

Those who know how to use Peruna
find it of untold value. By and by the
world will get wise enough so that
through correct living no medicine at
all will be needed. But that time has
not arrived. In the meantime, while
the world is approaching that perfec-
tion in which all medicine will be elimi-
nated, Peruna is a handy remedy to
have in the house.

Slight derangements of the stomach;
slight catarrhal attacks of the liver, the
throat, bronchial tubes, lungs or bow-
els; these attacks are sure to lead to
grave diseases, and can be averted by
the judicious use of Peruna.

Wouldn't you like to read a few un-
solicited testimonials from people who
have used Peruna, and who stand ready
to confirm the above statements con-
cerning it. If so, address the Peruna
Drug Manufacturing Co., Columbus,
Ohio, and we will send some prepaid.

CALIFORNIA IN WRONG POSITION

SO DECIDES DEBATING SOCIETY LAST NIGHT

SPARTA COMING MARCH 26

Viroqua Cancels Engagement and is Out of Race; Other Club is Against Pensions

The Lincoln-Douglass Debating society of the high school last evening decided that the United States should confirm California in the Japanese movement. The question as stated was "Resolved that the United States confirm California in the Japanese movement." Gelatt and Mable upheld the affirmative and N. Kelley and Hill the negative. The decision of the jury was 2 to 1 for the negative.

Sparta Here March 26

Interest is growing in the coming debate between the La Crosse and Sparta high schools which will take place in this city the evening of March 26. Both teams have been working hard on the subject and each school is looking forward to victory. Paul Esch, who will lead for the local team, reports that the La Crosse boys are ready for the battle of their lives and if the prediction of Esch comes true the home trio will defeat Sparta for the first time since the debating contests have taken place.

Against Pensions

According to the decision rendered by the Wendell Phillips Debating society jury in the weekly debate held last evening the club is against the pensioning of teachers after 25 years of service. Ahlstrom and Strause upheld the teachers and Brown and Steffel took the opposition. The jury rendered a unanimous decision for the negative.

Viroqua Cancels

The debate which was to have taken place between the Wendell Phillips society of La Crosse and the Viroqua High School Debating societies has been cancelled. The original plan was to have a three cornered debate as was held last year between the Sparta, Viroqua and La Crosse but as Viroqua has withdrawn for some unknown reason La Crosse and Sparta will contest for the laurels.

YEOMAN RECEPTION PROVES A SUCCESS

The reception given by Mrs. H. A. Lee in the Coren hall Tuesday afternoon for the Rowena Circle and ladies of the Brotherhood of American Yeomen was a very delightful affair. Fifty ladies were present. The afternoon was spent in playing progressive clinch. The head prizes were won by Mesdames Fay, Willey and Walter; second prizes by Mesdames George Rupert and A. Larson while the consolation was captured by Mrs. Wm. Rowland. At 4:30 dainty refreshments was served.

Rowena Circle Brotherhood of American Yeomen will give the ninth of their series of public card parties in Coren hall next Tuesday afternoon, March 9th.

Deputies Mr. and Mrs. H. A. Lee have the honor of taking in more members in the Brotherhood of American Yeomen than any Deputies in the United States. A total of 2,568 new members were taken in the Yeomen in the past month.

Yeomen State Convention.

The Brotherhood of American Yeomen will hold their next regular meeting in Coren hall Thursday evening, March 11th at which time the full work will be put on by the degree team.

All arrangements will be completed at that time for the state convention to be held here April 6th when another one hundred member class will be taken in.

The E. F. U. has kindly consented to allow the B. A. Yeomen the use of the hall for this convention April 6th and will hold their regular meeting on April 8th.

PRISONS OF STATE ARE ALL CROWDED

Sheriff Duncan returned last night from Waupun where he had taken Ed Reel, the Tomah man who was convicted of larceny. Mr. Duncan states that the condition is nearly as bad at the state prison as it is at the Green Bay reformatory in regard to the number of prisoners. There are at present over six hundred prisoners at the prison and it is rapidly nearing its limit.

RUMSEY BOUND OVER FOR TRIAL

VIROQUA, Wis., March 6.—(Special.)—Roy Rumsey, who was charged with making an assault upon Wm. Wheeler with intent to kill at a dance in Springville recently, has been bound over to the circuit court and placed under \$800 bail. The testimony showed that, while Rumsey was the first aggressor, Wheeler was the better man and was getting the better of the scrap until Rumsey began his knife play.

FIRST SIGNS ARE IN THE BACK

Take care of backache. A great many cases of kidney complaint are reported about here; also bladder trouble and rheumatism.

An authority once stated that pain in the back, loins or region of the kidneys is the danger signal nature hangs out to notify the sufferer that there is something wrong with the kidneys, which should receive immediate attention. Only vegetable treatment should be administered and absolutely no strongly alcoholic medicines, which are harmful to the kidneys and bladder.

The following prescription, while simple, harmless and inexpensive, is known and recognized as a sovereign remedy for kidney complaint. The ingredients can be obtained at any good prescription pharmacy and anyone can mix them: Compound Kargon, one ounce; Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.

This preparation is said to restore the natural function of the kidneys, so they will sift and strain the poisonous waste matter, uric acid, etc., from the blood, purifying it and relieving rheumatism. Backache will be relieved, the urine will be neutralized and cleared and no longer a cause of irritation, thereby overcoming such symptoms as weak bladder, painful, frequent and other urinary difficulties.

This is worth trying and may prove just what many people here need.

CONTRACTORS STOP PROBE FOR GRAFT

LITTLE ROCK, March 6.—Caldwell and Drake, contractors for the new capitol building, secured a restraining order stopping the government experts from making further tests at the capitol. They also filed suit for damage already done by the tests. The experts were engineers furnished by the government to discover the extent of graft, if any, in the construction of the new building. The test was being made in accordance with a resolution passed by the state legislature.

BISHOP PEACEMAKER IS NOW DEFENDANT

NEW YORK, March 6.—Suit has been entered against Bishop Chas. H. Cotton of Buffalo for an accounting of part of the estate of Ann Cassidy, who died leaving property valued at more than \$200,000. Bishop Cotton is accused of having wrongfully paid \$7,250 to heirs of the Cassidy estate when this money should, it is charged, have gone to Mrs. Mary Brook and Mary Cassidy. It appears that Bishop Cotton became involved in the litigation through trying to act as peacemaker between a dozen or more heirs who were trying to get large shares of the estate.

HAGENAH FILLS REPUBLICAN SLATE

George H. Hagenah, formerly bookkeeper at the Heileman Brewing company, also for the Colman Lumber company, has announced his candidacy for tax commissioner on the republican ticket. This makes the republican ticket complete.

MACVEIGH LEAVES.

CHICAGO, March 6.—Franklin MacVeigh, secretary of the treasury, will leave Chicago for Washington this afternoon to assume his new duties. He has severed his connection with Franklin MacVeigh & Co., and with all the corporations of which he was a director.

Secretary of War Dickinson will leave for Washington early next week. He has not yet been able to clear up his railroad affairs preparatory to accepting the portfolio.

DYE WORKS SOLD

The New York Steam Dye works, 516 State street, hitherto conducted by Stella Frost, was this morning sold to Christ Teasdale of the La Crosse Steam Laundry. Mr. Teasdale will take possession Monday morning.

GIVE IT A LITTLE OIL!

An engineer on a locomotive oils his engine a number of times every day—and the engine "rests" half of every day. Your watch runs day and night, continuously; but when did you have it oiled? Are the delicate pivots grinding away on dry jewels, to their destruction? Are watches so cheap that you can afford to have yours lose all its good time-keeping virtues by neglect?

Bring your watch to me, before the injury goes further. There may be excuse for its poor performance of late. I will examine it, and congratulate you if it needs no attention; and if it does, you shall pay for no more than is necessary to restore it to perfect health.

of Cook's money. E. H. Ellis and other Cook men were present. He did not mention Miller, Stephenson's Plattville representative, being present, but upon being pressed he recalled that Miller had called the meeting for the purpose of swinging the Cook workers to Stephenson. It is claimed by Cowling and other Stephenson men that this "bunch" "threw Cook down for Ike." Eastman got \$7.50 of Stephenson's money of which there is now a record; he swore he got none of Cook's money.

BUT ORPUT'S STATEMENT TO COWLING, COOK'S MANAGER, AS TO HOW HE SPENT THE \$1,675 OF COOK'S MONEY, CONTAINS AN ITEM OF \$35 TO A. O. EASTMAN.

RECOMMEND PART OF GENERAL CHARTER

The ordinance and finance committees met last evening and considered the salary proposition for the mayor and aldermen. The committee went over the matter thoroughly and decided to recommend the adoption of such portions of the general charter as are necessary to place salaries with the officers.

Just what the amount of the salaries will be cannot be ascertained for the matter will have to be decided at a future meeting of the council and the ideas of the aldermen vary from \$100 to \$250 salary to the aldermen and \$800 to \$1,200 for the mayor.

The committee did not consider the part of the general charter relating to the abolishment of the board of public works, but the ordinance committee will hold a meeting the first of next week to take up the matter.

BASEBALL MEN IN CITY TODAY

Joe Killian of Sterling, Ill., is in town today looking over the baseball situation for the coming season.

John Cain of Arcadia returned home today after visiting his cousin, Jake Padesky, for the past week. Fritz Johnson, former Catcher for the Athletics, will try out with the Winona team of the Minnesota-Wisconsin league.

Julie Burke, the local boy who played first base in the Fargo club of the Northern league, is in the city. Burke may be induced to sign with the locals. He has a good record with the Fargo club, having batted .215 and fielded .978.

SIX OF CABINET ARE SWORN IN

WASHINGTON, D. C., March 6.—Six members of the cabinet, headed by Secretary of State Knox, were sworn in at 10:10 in the cabinet room of the White house today by Chief Justice Fuller of the supreme court of the United States. In addition to Knox, those taking the oath were Hitchcock, Meyer, Ballinger, Wilson and Nagel. Attorney General Wickliffe was sworn in at his office late yesterday afternoon. Franklin MacVeigh, who is to be secretary of the treasury, and Jacob M. Dickinson, who is to be secretary of war, have not yet reached the city.

CHILD SUCCUMBS TO PNEUMONIA

Clarence Leonard Johnson, the 2 year old son of Edwin Johnson, 918 Grove street, died yesterday afternoon at 2 o'clock after two weeks' illness with pneumonia. Mr. Edwin Johnson is employed at the Doerflinger store.

The funeral will be held Monday at 2:30 from the house, and interment will be made in Oak Grove cemetery. Rev. Anderson will officiate and Fessler & Dahl have charge of the arrangements.

MOTORMAN HURT.

An icy snowball carelessly thrown from the hand of Elmer Benke, 711 South Fifth street, about half past 1 o'clock this afternoon, broke the glass in the front vestibule of car No. 35 and badly cut Motorman Tom White about the face.

Car No. 35 with Conductor George A. Graf in charge was going south on Fifth street. The wounds bled freely and he at once proceeded to the North side, where Dr. Sulter dressed the injuries.

Mr. White does not blame young Benke, as he thinks the snowball was thrown at some other object, and that the boy did not mean to hit the car. The accident occurred between Ferry and Market streets.

FAMOUS DRIVER GOES TO BUICK

Lewis Strang, winner of the Savannah, Biarritz and Lowell road races, former holder of the mile circular track record of .51 3-5, and regarded as one of the great drivers of the world, has signed with the Buick Motor company and will be at the wheel of Buick cars in the important events on track, road and hill. Strang will compete in stock events with the speedy Buicks and will also have two special racing cars for the free-for-all events and record trials.

The defection of Strang from the ranks of the drivers of high-priced foreign cars, with whom he has always been identified, was not caused by the lure of gold. Strang has long felt that American cars, given the skillful handling the foreign machines receive, are faster than those of Europe. But when Bob Burman, noted Buick pilot, won the 100-mile world's track championship at New Orleans Mardi Gras speed carnival, with a 1,750 stock Buick, defeating Strang and his undefeated Isotta, and George Robertson, Vanderbilt cub winner and his 90 horse-power Savannah Grand Prize Simplex, breaking the world's record by 11 minutes, Strang says he saw "the handwriting on the wall" and realized the time had arrived for the Buick connection if he was to keep in front.

Burman and Strang will compose the Buick team and according to racing experts will prove a mighty combination. Strang, the crafty, cautious and conservative, considered the most skillful "nurser" of engines and tires in the country, and Burman, the fearless, daring and chance-taking, who relies absolutely on confidence in his car to cross the finishing line. These are the two men the Buick followers look for many victories and broken records this season.

While it is not the intention of the Buick company to make an extensive or pretentious campaign in connection with racing, yet Burman and Strang will participate in the more prominent contests in all parts of the country during the year.

Burman is at present at Daytona ready for the Florida beach races, while Strang is at the Buick factory in Flint, looking after the construction of his racing cars and practicing with his stock models over the Michigan roads.

LOUIS TABATT JOINS MAJORITY

Word has been received in the city of the death of Louis Tabatt, a former resident of La Crosse, at New Albin, Ia. He had been sick for some time and his condition grew gradually worse until he died this morning at 2 o'clock.

The funeral will be held Monday afternoon and interment will be made in the cemetery at New Albin.

WOMAN ILL WHO DIDN'T FEED CATTLE

Mrs. Christina Ferris of the town of Farmington, who was brought before Judge Brindley some time ago charged with starving her cattle, was examined and found insane by Drs. Egan and Alger. Mrs. Ferris' condition has been suspicious for some time and she has been subject to epileptic fits. She will be taken to West Salem for treatment.

SOLDIERS IN ROUGH HOUSE AT CAPITAL

WASHINGTON, D. C., March 6.—Pennsylvania has another bill to settle for havoc created by her guardsmen at an inauguration. Before leaving town last night the soldiers of Company K, Fifth Pennsylvania volunteers, charged the lunch rooms and grocery stores in the vicinity of North Capitol street, "beat pi" the proprietors and employees, appropriated edibles, tobacco, and cigarettes and wrecked the stores.

BODY TAKEN TO STUEBEN, WIS.

William Vaughan, age 4 years, son of Mr. and Mrs. W. W. Vaughan, died at St. Francis last night at 6 p. m. The body was sent on the midnight Burlington to Stueben, Wis., where interment will be made. Y. L. Tetley is in charge of the funeral arrangements.

MILWAUKEE WORKMAN KILLED

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

EXPLOSION OF STOVE KILLS TWO CHILDREN

HASINGS, Minn., March 6.—The explosion of a kitchen stove in the home of Louis Hustling, a nursery salesman, burned his four-months-old son to death, injured his two-year-old daughter Eva so that she died last evening and seriously burned his wife, who struggled to rescue the children.

The explosion arose from the rapid generation of coal gas, the force of which split the cast iron chimney into slivers and hurled the heaviest parts of the huge stove to the farthest end of the room.

SHOTS STEP-SISTER IN FAMILY QUARREL

WATERLOO, Iowa, March 6.—Winston Bucknell today at Green, Iowa, fatally shot his stepdaughter, Frances Miller, aged 16, in a family quarrel and tried to kill his mother-in-law, Mrs. Frederick Butzless.

Bucknell then attempted suicide by shooting but a watch chain deflected the bullet.

He was captured by citizens, who threatened to lynch him. Deputy sheriffs are protecting Bucknell.

"My three year old boy was badly constipated, had a high fever and was in an awful condition. I gave him two doses of Foley's Orino Laxative and the next morning the fever was gone and he was entirely well. Foley's Orino Laxative saved his life." A. Wolkush, Casimer, Wis. O. T. Erhart.

NO. 13 ATTEMPTS SUICIDE

ST. PAUL, Minn., March 6.—Despondent over ill health, John Thorson, a laborer, aged 58 years, it is alleged, attempted suicide by inhaling gas in his room at 1825 Second street south, Minneapolis, early today. He was taken to the city hospital, where it is said, that he will recover.

This is the thirteenth alleged attempt at suicide reported to the Minneapolis police since Feb. 14. Of the thirteen attempts six have been successful.

EVIDENCE OF CRIME

ST. PAUL, Minn., March 6.—Any person with an established criminal record found with dangerous weapons, explosives or burglar tools, may be sent to state prison for from two to five years, according to a bill introduced today in the house by Representative Adams of Fergus Falls.

Nervous Prostration

"I suffered so with Nervous Prostration that I thought there was no use trying to get well. A friend recommended Dr. Miles' Nervine, and although skeptical at first, I soon found myself recovering, and am to-day well."

MRS. D. I. JONES,
5800 Broadway, Cleveland, O.

Much sickness is of nervous origin. It's the nerves that make the heart force the blood through the veins, the lungs take in oxygen, the stomach digest food, the liver secrete bile and the kidneys filter the blood. If any of these organs are weak, it is the fault of the nerves through which they get their strength. Dr. Miles' Nervine is a specific for the nerves. It soothes the irritation and assists in the generation of nerve force. Therefore you can hardly miss it if you take Dr. Miles' Nervine when sick. Get a bottle from your druggist. Take it all according to directions, and if it does not benefit he will return your money.

SALARY BALKER TO GET CUT INSTEAD

PITTSBURG, Pa., March 6.—The Pittsburgh club announces that Pitcher Willis, who is balking on salary, must sign before Monday night at the terms offered or suffer a cut in salary instead of the advance which he has been offered, said Barney Dreyfuss. "Willis has gone too far. If he does not appear to sign a contract by Monday at the salary first offered him he will have to play for less money and for a great deal less at that."

HOME-MADE QUININE HAIR TONIC

The high cost of a good quinine hair tonic prevents thousands of men and women from using such a preparation daily on the hair. This has resulted in the study and investigation of the subject by some bright men and women who use quinine hair tonic regularly, but who do not care to pay for the expensive ready-made tonics. They find that by simply mixing one ounce of Beta Quinol with half a pint of water and half a pint of alcohol that they can make more than a full pint of a quinine hair tonic of better quality and more beneficial to the hair than any of the widely advertised brands. A tonic made as described here will help the hair to become beautiful, glossy, long and abundant. It tends to prevent dandruff and falling hair keeps the scalp in a healthy condition. This home-made tonic is used by women who have most beautiful hair and plenty of it, as well as those whose hair and scalp are not in perfect condition. The Beta Quinol and alcohol can be procured at any drug store for 75c of 80c and they will make more and better hair tonic than you could buy for \$2.00 in a manufactured state.

FROZEN HYDRANTS LET HOTEL BURN

FROZEN PIPES IN SPARTA COST \$4,000
COMMERCIAL HOTEL RAZED
Firemen Hurry to Scene in Time to Extinguish Flames, but Water is Frozen Up

SPARTA, Wis., March 6.—(Special.)—The Commercial hotel across the tracks from the C. M. & St. P. depot was totally destroyed yesterday afternoon by fire, entailing a loss of about \$4,000.
Mrs. Mary Angel was the owner and proprietor of the hotel and discovered the fire in the kitchen about 3 o'clock in the afternoon and immediately turned in an alarm. The firemen were prompt in answering but when they arrived on the scene it was found that the fire hydrants were frozen and no water could be had with which to put out the flames which gained rapid headway and by 4 o'clock nothing was left but the smoldering ruins.
The hostelry was used mostly by railroad men. Most of the furniture down stairs was saved, but everything up stairs was burned.
About \$2,000 insurance was carried on the building and contents, \$2,000 on the building and \$1,000 on the contents.
Three fire hydrants were frozen in the vicinity of the fire. The mayor set two men to work at once thawing out the hydrants and testing all hydrants in Sparta.
Had the firemen been able to obtain water most of the building would have been saved.

KILL THE BILL TO OUST CHIROPRACTORS

Attorney Fred Hartwell this morning received word from St. Paul to the effect that the Minnesota legislature had killed the bill designed to put the chiropractors out of business. This bill was drawn up to offset a bill in favor of which Mr. Hartwell has appeared several times before the legislature, which allows chiropractors to practice. This bill for the legalization of chiropractors is being supported by the Minnesota Naturopathic association and the Universal Chiropractors' association, and is expected to pass the house not later than Tuesday of next week.

FEAR AT TEHERAN OVER ONSLAUGHT

CHICAGO, March 6.—Since "Chick" Fraser, the Cub pitcher, has joined the ranks of the "hold outs" he is being besieged by offers to play with one of the local semi-professional teams this summer. Fraser and President Murphy have so far been unable to reach satisfactory terms and Murphy intimates that unless the veteran twirler meets his terms he will be sold to the Columbus American association club.

FAZER MUST SIGN OR GO TO MINORS

TEHERAN, March 6.—The greatest alarm yet felt in the Persian capital is being experienced today as the result of the report that General Petroff, a former Bulgarian army officer, is leading an army of revolutionists against Teheran from Resht. The few government troops available are being called in to defend the city which has been under a heavy guard for the last few months.

WOODMEN HOLD BIG "REVIVAL"

Gateway City Camp No. 360, M. W. A., has made plans for a big time on the 19th of this month. The real purpose of the celebration is to revive the interest in the order and as quoted by one of its members "to show that we are still alive." A committee of three consisting of Judge Kleeber, Charles Willey and William Luth has been appointed to arrange for entertainment, and they have already placed the name of Wm. F. Wolfe on the program for a speech. The event will take place in the Linker hall and all Woodmen, their families and friends have been invited. Good music, dancing and refreshments have been promised.

ENGLAND TO BUY WRIGHT AREOPLANE

LONDON, March 6.—The English government will open negotiation with Wilbur and Orville Wright for the English rights to their aeroplane when the famous brothers come to London this month for the aero exhibition.

Ever since the Wrights sold the French rights to their aeroplane for \$100,000 there has been an increasing demand that England take advantage of their wonderful invention as a war measure.

German is also considering a proposal to buy the Wright machine, the purchase by France making it almost obligatory that the other powers follow suit.

NEW ADVERTISING MANAGER ARRIVES

Mr. C. B. Phipps, new advertising manager for the William Doerflinger company, has arrived in the city and takes immediate charge of the company's advertising department. Mr. Phipps succeeds Harry Whittier, who last had charge of publicity at the Doerflinger store.

Mr. Phipps is a man of wide experience in his line and comes here from Kansas City where he has been advertising manager for C. Burnheimer Brothers & Co. He was in the publicity promotion business there for fourteen years, having been assistant advertising manager for the Jones Dry Goods company and later advertising manager for the Mitchell Dry Goods company, before becoming associated with Burnheimer. Mr. Phipps has a thorough insight into the business and will no doubt make a complete success of his work in La Crosse.

DAILY MARKETS

FOREIGN MARKETS

New York Stocks

NEW YORK, March 6.—The more important stocks traded in generally showed moderate losses. The leading railroads and industrials declined from 1-4 to 1-2 under moderate sales, while a number of the minor industrials were forced into prominence. A gain of 1-4 points was made in Colorado Fuel. The Inter-Metropolitan issues as a group were strong and active.

11 a. m.—There was a generally firm tone to the market all through the first hour with a majority of the stocks traded in during that period showing moderate net gains.

Government bonds unchanged; others dull but firm.

The market closed heavy.

Bank Statement

Chicago Grain.

Chicago, March 6.—The wheat market today was just the sort that might have been expected after yesterday's clean up and with Monday's government report on farm reserves ahead. There was May wheat on tap all day but not a very big market for it. There was frequent bidding of May by leading longs apparently to help out the efforts of other brokers and commission firms that had selling orders. July trading was choppy and unimportant. The corn market opened steady to firm and ran right up at the outset because of the large number of commission orders in the market and the absence of offerings.

A strong undertone in oats was helped some by the wheat and corn advances.

Provisions advanced sharply.

CURED ITCHING PAINFUL HUMOR

Which had Spread Over Face, Body
and Arms—Swellings were as
Large as a Dollar—When they
Broke, Sores would Not Heal—
Suffered 3 Years.

MADE SOUND AND WELL BY 3 SETS OF CUTICURA

"My trouble began about three years ago with little black swellings scattered over my face and neck. They would disappear but they would leave little black scars that would itch at times so I couldn't keep from scratching them. Larger swellings would appear in the same place and they were so painful I could hardly bear it and my clothes would stick to the sores. The first doctor I went to said the disease was scrofula, but the trouble only got worse and spread. By this time it was all over my arms and the upper part of my body in big swellings as large as a dollar. It was so painful that I could not bear to lie on my back at night. The second doctor pronounced my disease inflammation of the lymphatic glands. He stopped the swellings, but when they would break the places would not heal. He tried everything that he could but to no effect. He said I might be cured but it would take a long time. I bought a set of the Cuticura Remedies and used them according to directions and in less than a week some of the places were nearly well. I continued with the Cuticura Remedies until I had used three sets, and now I am sound and well. The disease lasted three years from the time it commenced until I was cured. Before Christmas something broke out on my seven year old brother's hands in the form of large sores. I tried everything I could think of but to no effect until I happened to cure of Cuticura and one application cured him. Also, not long ago, my sister got a bad burn on her ankle. I have been using Cuticura on that and it gave her scarcely any trouble. O. L. Wilson, Puryear, Tenn., Feb. 8, 1908."

When your Watch Stops

You cannot make it go by shaking it.

When the bowels are constipated you can disturb them with cathartics but, like the watch, they will not be able to do their allotted work until they are put into proper condition to do it.

One cannot mend a delicate piece of mechanism by violent methods, and no machine made by man is as fine as the human body.

The use of pills, salts, castor-oil and strong cathartic medicines is the violent method. The use of the herb tonic laxative,

Lane's Family Medicine

is the method adopted by intelligent people.

Headache, backache, indigestion, constipation, skin diseases—all are benefited immediately by the use of this medicine.

Druggists sell it at 25c. and 50c.

WISCONSIN NEWS

EDITOR KNOCKS TWINE FACTORY

MADISON, Wis., March 6.—Vigorous opposition has developed to the continuation of the state twine plant now under construction at the state prison at Waupun. The appropriation of \$125,000 given by the legislature two years ago has been spent in the construction of the building, and now the legislature is asked to appropriate \$200,000 more to provide machinery and material.

The most conspicuous form this opposition has taken is found in an editorial in the current issue of the American Thresherman, published in this city, whose editor, B. B. Clarke, has written in his characteristic style a philippic which has been distributed to every member of the legislature.

WISCONSIN GETS FORESTRY STATION

MADISON, Wis., March 6.—Word was received yesterday by President C. R. Van Hise of the state university from Forester Pinchott announcing that the United States forestry station has been awarded to the University of Wisconsin. The choice of location lay between Michigan and Wisconsin and has at last been definitely decided in favor of the state university despite the fact that Michigan offered to expend more in the construction of a suitable laboratory. The final decision of the authorities at Washington was based on the merits of location.

NO CHANCE FOR SCHOOL AGE BILL

MADISON, Wis., March 6.—(Special.)—From the flood of petitions that have been coming to the legislature during the past two months, there is little possibility of the passage of the Ainsworth resolution for raising the school age. Under the existing laws a child over four years can attend school. Assemblyman Ainsworth of Waukesha, at the last session of the legislature, proposed to change this so that a child must be at least six years of age before it could attend school.

Near Death in Big Pond
It was a thrilling experience to Mrs. Ida Soper to face death. "For years a severe lung trouble gave me intense suffering," she writes, "and several times nearly caused my death. All remedies failed and doctors said I was incurable. Then Dr. King's New Discovery brought quick relief and a cure so permanent that I have not been troubled in twelve years." Mrs. Soper lives in Big Pond, Pa. It works wonders in Coughs and Colds, Sore Throats, Hemorrhages, La Grippe, Asthma, Croup, Whooping Cough and all Bronchial affections. 50c and \$1.00. SAVE SIGHT OF BABES.

MADISON, Wis., March 6.—The state legislature on Friday took the first step of this session to improve the health conditions in Wisconsin, when the assembly passed a bill for the prevention of inflammation of the eyes and blindness of the new born babe, or so called ophthalmia neonatorum.

This measure vests the state board of health and vital statistics with power and authority to publish and distribute among the physicians, midwives, nurses or other persons requiring such information, instructions relating to inflammation of the eyes and the proper methods of prevention.

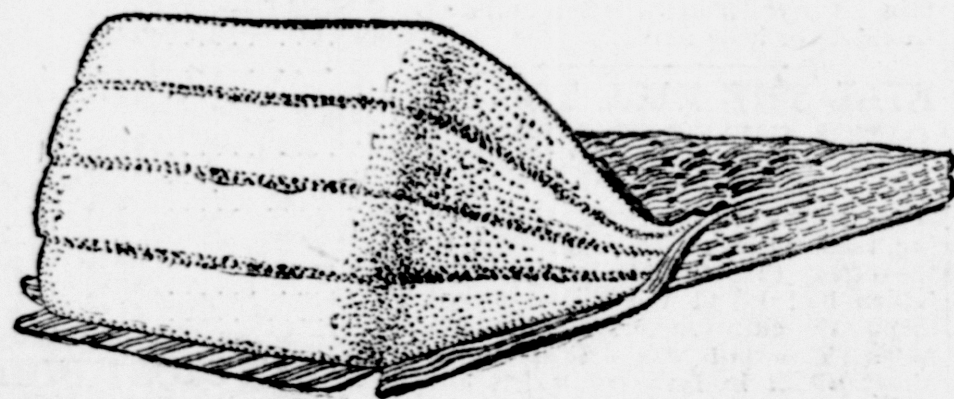

JILTED, TURNS CROOK.
MILWAUKEE, March 6.—"My girl wouldn't marry me," was the reason given in municipal court by Otto Buechs, when asked by Judge Brazee why he had joined the Weber gang of four youthful burglars who robbed six Milwaukee homes about a month ago and were captured by the police Wednesday night. Buechs, who is 19 years old, assumed the downcast stare of the rejected lover and the cornered criminal as he stood up with his pals, Charles Weber, aged 21, and William Lange, aged 20, and received the sentence of the court—three years at hard labor at the state penitentiary at Waupun.
